## Description

Lampero PES Strap WG65 is a non-woven, textile polyester strap also known as hotmelt strap or PES strap.

Lampero Bale Strap offers impressive weathering and chemical resistance, along with 13% elasticity. This allows it to secure goods with exceptional strength while absorbing thermal expansion, contraction, and mechanical shocks.

Use H22 Tensioner and CB6F buckles for securing.

The strap is made of virgin polyester yarn and adhesive. It complies with EU safety standards for packaging of foodstuffs and personal care products according to Regulation (EC) No 1935/2004.

The product is not subject to REACH registration and contains no SVHC-listed substances (ECHA, 2018-06-28). It is free from heavy metals (Pb, Cd, Hg and Cr(VI)), PFAS, and Persistent Organic Pollutants (POPs). The strap is not recyclable.
